Included in all our packages is a 2 hour training session with our clients when we transfer your puppy to you. For the 10 week old and 11 week old puppy programs, we provide this at our facility. With the 12 week old fully trained puppy program, the training session is carried out in the comfort of your home. We will also provide you with the Happy Hound Puppy Jump Start Training booklet, their blanket, squirrel toy, bone, treat bag, pen and flashlight.

HST would be added to all of the above prices.

You will notice a price jump from the 11 week old program (or 3 week program) to the 12 week old (or 4 week program). This is because your puppy would be placed into a trainer's home for the 4 week program. This is a much more intensive training program. We only allow two puppies per trainer in this program. The major program differences are:

- Your puppy will be 100% ringing a bell or signalling to you when they want to go outside to do their business.
- Puppy biting is under control.
- Totally trained to follow you.
- They will know their off commands and be able to greet people politely.
- Trained to stay all day on their own and be happy.
- Extremely well socialized to walkers, wheelchairs, grocery carts, elderly, children, etc.
- Your trainer will bring your puppy to your home and conduct a 2 hour training session with you and your family. There could possibly be a transportation charge depending on your location (ie. if you are a distance out of town).

Additional training is \$450 weekly

We also provide In-Your-Home Training for you and your dog/puppy

\$225/session (which is usually about 1 ½-2hrs in length) or
\$625 for 3 sessions

*** add HST on all prices**
