

Puppy Jump Start Training Packages

Happy Hound is dedicated to providing healthy **trained** puppies with amazingly calm, laid back temperaments. Unlike kennel breeding, our puppies are raised in a training facility encompassing house training, one-to-one attention including socialization at a very young age. Clients will choose their puppy in-person and continue their bonding with weekly visitations (subject to COVID restrictions).

Included in the training packages... you will receive a **group training session** for you and your family at our training facility. This is completed upon the transfer of your puppy.

We will also provide you with the **Happy Hound Puppy Gift Package** which includes our Training booklet, their blanket, fox toy, bone, treat bag, pen and flashlight PLUS private access to **our training video** of a condensed Happy Hound training session.

The puppy will be **dewormed**, fully **health checked** by a veterinarian, and include their vaccination certificate for their **1st set of shots**, and their personal record book.

Puppy receives its' **Spa Treatment**: bathed, conditioned, nails trimmed, puppy face and behind trim, blow dry and conditioning spray.

The main differences between the 11 Week Old Training Program and the 12 Week Old Full Training Program is that in the 12 week our puppy...

- will live with our Puppy Trainer in their home for more 1-on-1 personal training and socialization.
 - is beginning to signal us to go outside to do their business.
 - will understand house training practices.
 - will know the “off” command to prevent puppy from snatching something you drop
 - will have more socialization and leash handling.
