

Puppy Jump Start Training Packages with a Non-Happy Hound Puppy

Happy Hound wants to help you get started on the right track with your puppy. The Happy Hound Puppy Jump Start training programs are designed to provide clients with a head start with their new puppy to begin your journey with the newest member of your pack. Socializing a puppy is important and key between 8-16 weeks of age which our programs offer. It is the best time to socialize them to anything and everything that they will encounter in their entire lifetime. We will have clients continue their bonding with their puppy with weekly visitations (subject to COVID restrictions).

Included in our training packages... you will receive a **group training session** for you and your family at our training facility. This is completed upon the transfer of your puppy.

We will also provide you with the **Happy Hound Puppy Gift Package** which includes our Training booklet, their blanket, fox toy, bone, treat bag, pen and flashlight PLUS private access to **our training video** of a condensed Happy Hound training session.

Puppy receives its' **Spa Treatment**: bathed, conditioned, nails trimmed, puppy face and behind trim, blow dry and conditioning spray.

Ask any questions training **Call**

Trained Goldendoodle Puppy **(10 weeks old)**

\$3,995

Puppies are conditioned to the word Yes, they will understand the Sit command, Housetraining is well underway as they will turn to look at you for a treat when they pee/poop and they will use a pee pad if they are left too long and sometimes will scratch at the door or ring the bell, they will know Puppies Come which can quickly be transfer to their Name & Come, they will understand the Back command to help with door darting, they will be left alone in a positive way to help prevent separation anxiety and they will begin to know the Follow command

Trained Plus Goldendoodle Puppy **(11 weeks old)**

\$4,795

Puppies are conditioned to the word Yes, they will know their Name, they will Sit for your attention, Housetraining is almost complete as they will look at you as they eliminate along with learning to ring a bell to go outside and they will use a pee pad if they are left too long alone, they will know their Name & Come, they will know the “Back, Back” command to prevent door darting, they will be left alone in a positive way to prevent separation anxiety and they will know the “Follow” command. They will have a good start on their Down command, plus their Off command which helps prevent jumping on people

The main differences between the 11 Week Old Training Program and the 12 Week Old Full Training Program is that in the 12 week our puppy...

- will live with our Puppy Trainer in their home for more 1-on-1 personal training and socialization.
 - is beginning to signal us to go outside to do their business.
 - will understand house training practices.
 - will know the “off” command to prevent puppy from snatching something you drop
 - will have more socialization and leash handling.
-
